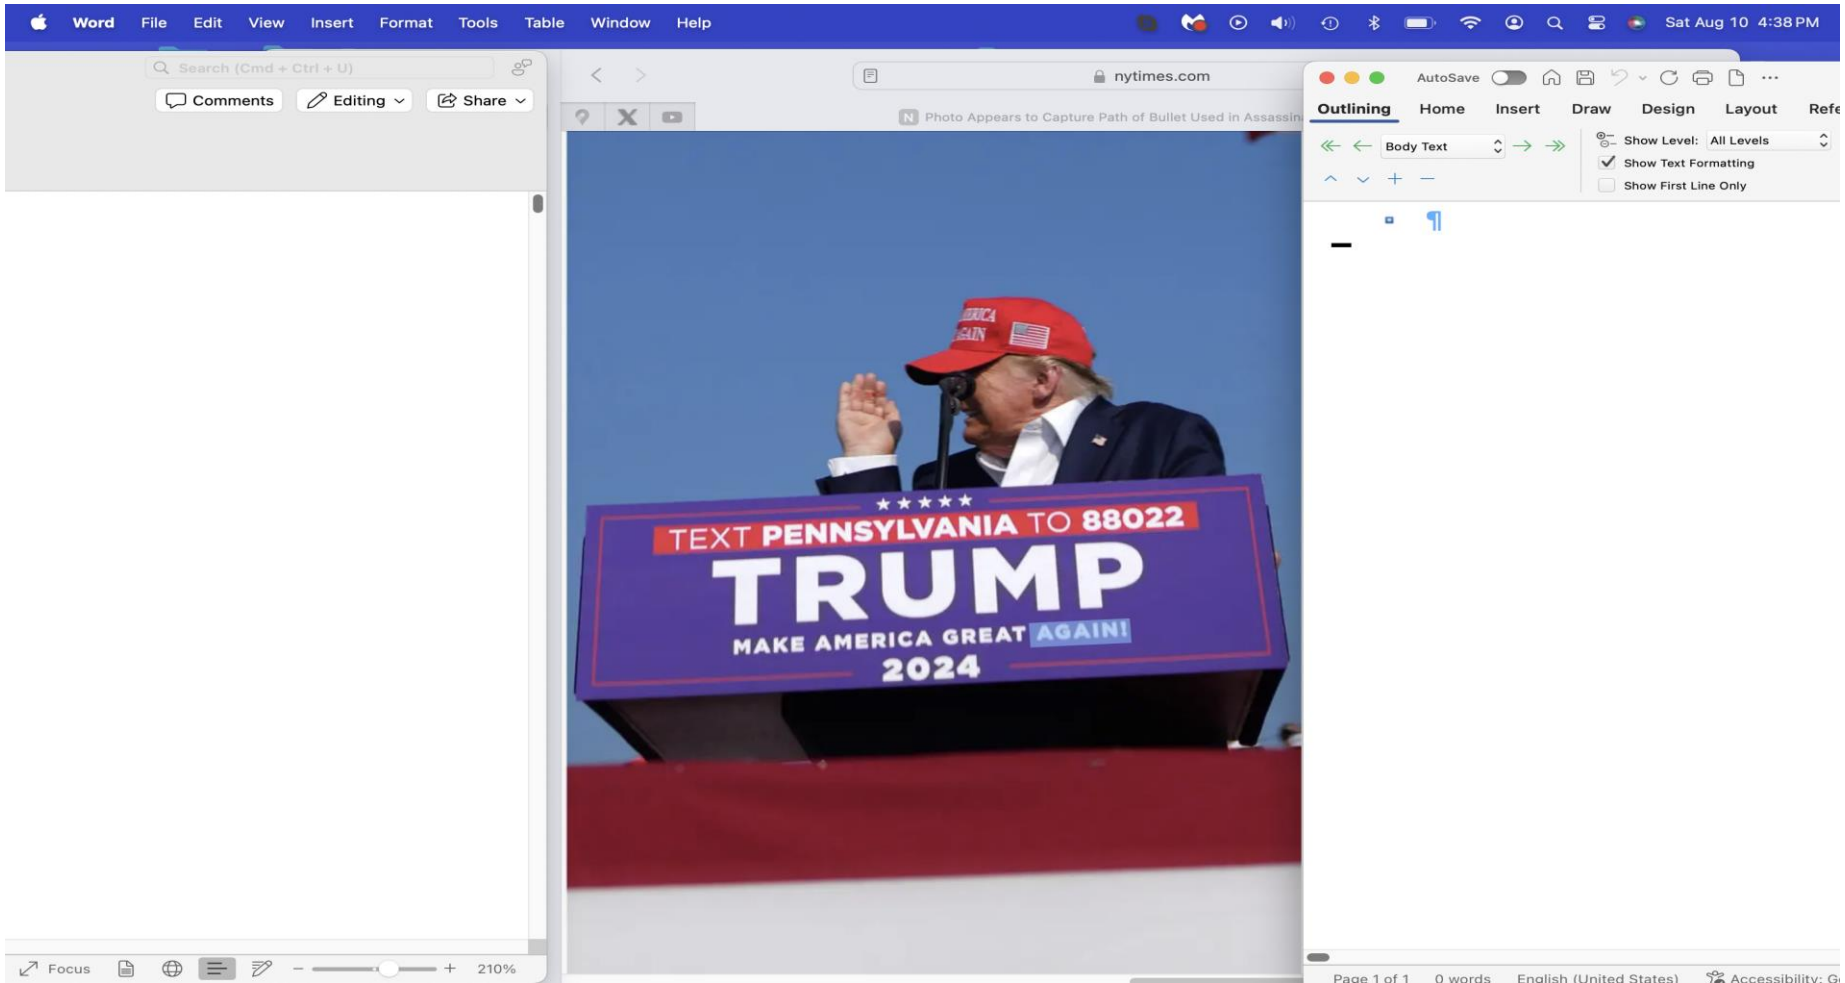
Close Up of the Second of the Three Photos

There's ONLY A SINGLE Barely Visible Blood Streak Across The Upper Inner Fingers of The Right Hand *Right* After Swiping The Right Ear



Yet Trump Claimed His Hand "Was Covered With Blood" *Right* After Swiping His Ear

"I moved my right hand to my ear, brought it down, and my hand was covered with blood. Just blood all over the place. ... There was blood pouring everywhere. ... They (the Secret Service agents who fell on him) saw all of the blood and thought I was dead."

– Trump's Speech at the Convention a few days later

It Was "Safe" To Stand Trump Up

Right After Getting Word That A Roof Shooter Was Shot ??

How Did They Know There Weren't *Other* Shooters ??

OR If They Knew There **Were** Others (There *Were*)

How Did They Know **They *Wouldn't* Be Shooting *At* Trump ??**

6:11:33 -- First Volley of Three Shots

Four Seconds Later -- Second Volley of Five Shots

38 Seconds Later -- SS: "Shooter's Down! Good to Move (Trump)!"

And Let Trump Bare His Head for The 'Iowa Jima' Photo

Secret Service Ballistics Expert Interviewed by AP, and Former Marine and Army War College Dir. of Strategic Studies Alan Sabrowshy: The .223 caliber bullets used – all eight of which were reportedly found on the Roof near the Shooter – are high velocity rounds that would cause a concussion if the path were even close to the ear, and any .223 bullet or bullet fragment even grazing the ear would have made a far greater wound with much more blood or have even have ripped the ear off. Yet not even one suture was required at the hospital immediately afterwards.

The Location of The Blood Streaks Isn't What A Real .223 Bullet Or Bullet Fragment Grazing The Upper Ear Would Do.

Any Bullet From The Direction Of Roof Shooter Would Have Traveled From ***Front to Back***

So Splattering Would Be ***Behind*** The Ear and In The Hair

Not In Front of The Ear On The Cheek

Conveniently,

It Was Rep. Ronny Jackson, Trump's Former White House Physician Demoted by The Navy for Medical Ethics Violations Cited In A Pentagon Inspector General's Report and Top Trump Campaign Advisor Who Was With Trump for His Exam at the Hospital Where He Was Taken Right After The Shooting, Who Cited **Private** Hospital Records To Back Trump's Claim His Ear Had Been Grazed By A Bullet.

Jackson Also Said That Some of His Own Family Members Had Been At The Rally

And That *His Own Nephew,* Like Trump, Had *Also* Been *Grazed* By A Bullet.

The Nephew Is NOT One of the Official Story Shooting Victims.

The FBI Acknowledges:
Ten Shots Fired In 16 Seconds, The First Eight By Crooks, The Roof Shooter

- First Volley of Three Shots By The Roof Shooter That “Sounded Different” from The Next Five, One of Which -- or Fragment of Which – Allegedly Grazed The Top of Trump’s Right Ear
- Instantly A Second Volley of Five Shots By The Roof Shooter for A Total of Eight with Eight Spent Cartridges Found on The Roof
- Ninth Shot By A Local Law Enforcement Officer at The Roof Shooter From The Ground c. 100 Yards Away After Which He Stopped Shooting
- **After A Ten-Second Delay** The Tenth Shot By A Secret Service Sniper On The Right Barn Roof Behind The Main Stage Killed The Shooter

But The Roof Shooter **Was Not** The ONLY One.

Multiple Witnesses heard gun shots and saw smoke coming from behind a chain link fence

Lisa Reynolds, 55, and Debbie Jacob, 57:

" We were about 150 yards from the shooter. We didn't see him but we heard the pops and saw the smoke from his fire," Jacob said. "He was behind the chain fence. The Secret Service (actually police) all ran for him and started jumping the fence."

An Officer chased the suspect who made it to a white van and drove off.

Crooks had looked up how far Oswald was from JFK's limo and used a Range Finder on the grounds shortly before the Rally started.

FBI Director Wray initially testified to Congress that the Agency could not rule out that there could be other suspects.

Shooter,

The Photo Taken By The Rally Vendor Proves It Was Crooks.

But Was Yearick The Shooter From Behind The Chain Link Fence ??

And Was He Also Killed ?? His Family Claimed He's Alive

And That There Would Be A Video Proving It. But This Hasn't Happened

An Expert Marksman, Maxwell Yearick
Is (Was ??) The Son of Roger Yearick,
The Owner of Yearick Armory and Explosives in Mesa, AZ,
and designer and manufacturer of a state-of-the-art AR-15 style sniper rifle (Crooks used an AR-15 style rifle) who was stationed at Warren AF Base in Cheyenne Wyoming with James Copenhaver, one of the three officially acknowledged surviving shooting victims, and is a close family friend of former Vice President Dick Cheney of Wyoming.

Maxwell Yearick Drove a White Van with AZ Plates, Later Found To Contain Explosives, Owned by His Father Roger Yearick

Which He Parked Near The Water Tower. Crooks Was Seen Going Back and Forth To The Van and Had A Wireless Remote Control on The Roof The FBI Theorizes Could Have Been Used To Detonate The Explosives (But Which Were Not).

My name is Jonathan Willis, I'm the officer in the famous photo of the two snipers on the roof at Trump's rally. I came here to inform the public that I had the assassin in my sights for at least 3 minutes, but the head of the secret service refused to give the order to take out the perp. 100% the top brass prevented me from killing the assassin before he took the shots at President Trump.

"... **At 6:02,** the same local sniper who had radioed the message about (seeing Crooks with) a range finder (**Beaver County Sheriff ESU Sniper Sgt. Greg Nicol**) was on the second floor of the building owned by AGR International. From a northwest window facing away from the rally site (to which he had gone contrary to his assignment to watch the rally site from a window on the opposite side of the building)he glimpsed the suspect (then still on the ground) again just as Trump was preparing to take the podium. When Crooks was spotted again (by Nicol at 6:02) walking towards where he would gain access to the rooftop (four minutes later at 6:06), a local police officer (again **Nicol**) "**mischaracterized** where he was headed, **directing his colleagues to the wrong side of the building**. ... Nicol (wrongly) suggested that Crooks was heading in the direction of a gas station on the other side of the building. That wrong information was circulated quickly (and widely), the transcript shows." This misdirection allowed Crooks to climb unto the roof allegedly undetected. "But by the time Crooks was on the roof (at 6:06, the time a video showing him doing so was obtained by the FBI) local police officers were still focused on finding him on the ground." (due to Nicol's misdirection). "... Nicol has not responded to (the Post's)requests for comment."

That morning Nicol and the rest of the local law enforcement team had been briefed by Beaver County Sheriff Tony Guy that "plainclothes" counter snipers would be on the roof of the AGR Bldg. from which Crooks later shot, a briefing that was **not** attended by the Secret Service.
